

SOKUL

SURFACES

CONTEMPORARY • DESIGN • COLLECTION

The background of the entire page is a deep blue. A large, diagonal, semi-transparent image of a light-colored, speckled stone surface (likely marble or granite) runs from the bottom left towards the top right. Overlaid on this are several thick, solid blue diagonal stripes that create a sense of movement and depth. The Sokul Surfaces logo is positioned in the upper right quadrant, featuring the brand name in a clean, white, sans-serif font.

WHY SOKUL

COMPANY OVERVIEW

Like all great products, we started with the problem. With years of experience in the stone and tile industry, we came to realize a major, unsolved problem in the design of floating vanity sinks. Historically, vanity sinks, both residential and commercial, have been designed with a sole focus on aesthetics, leaving us with sinks that look good, but are hard to install and even harder to properly clean and maintain.

By combining contemporary, handcrafted design with innovative solutions to installation and maintenance, the Sokul Sink is the only vanity sink of its kind. As the only quartz floating sink on the market, Sokul Sinks are leading the way on satisfying consumer and designer trends. We currently offer several floating, cabinet mount, and vessel style sink designs, each with 17 different stock colors and many size options.

We accept custom orders on any 2cm quartz or granite that is available to us, with custom sizes supplied upon request.

QUARTZ TURBINE GRAY

SOKUL SINK
